STEFAN KORTELAND IS GUARANTEED TOUGH.

Stefan understands power. Because it's his job to protect The Netherlands from the brutal forces of the North Sea. As an engineer on The Netherlands' largest flood barrier, Stefan is responsible for maintaining the massive ocean defense barrier.

STEFAN KORTELAND IS GUARANTEED TOUGH.

Stefan understands power. Because it's his job to protect The Netherlands from the brutal forces of the North Sea. As an engineer on The Netherlands' largest flood barrier, Stefan is responsible for maintaining the massive ocean defense barrier protecting the low-lying population centres from flooding. Often isolated from the mainland and suspended above treacherous seas at the mercy of the elements, mains electricity is not an option for Stefan's work.

Thankfully, he can rely on the DEWALT XR range, for the power of corded and the freedom of cordless. Stefan's toolbox is powered by the DEWALT XR FLEXVOLT battery, so he gets guaranteed performance whenever he needs to work.

"WE HAVE TO RELY ON CORDLESS"

Whether he's using his cordless SDS Hammer to drill anchor points into immense sea breaks, or maintaining the steel barrier doors with an impact wrench, Stefan can tackle every job with just one battery. Because the DEWALT XR FLEXVOLT is the only battery on the market that can switch from 54V to 18V.

Which means, after a long day on site, Stefan sleeps soundly, knowing that the barrier won't let him down. And neither will his tools.
