

# Tong Sealers

## Portable Sealer

**Hand Held Portable sealer for sealing.**

**Moosh** has been Manufacturing sealing tongs since last 20 years. They are available both as heat sealers and impulse sealers. The term tong sealer is often a literal description of sealing tongs, which are held in the hand.

**Moosh** Portable Tong Sealers are Used to seal Heavy / Or Large Size Pouches or Plastic Bags where the product to be sealed is immovable or too large to seal in one operation.

Tong Sealers are very Light Weight, and so can be held in hand easily.
